

## **wire China and Tube China 2020:**

### **Successful trade fairs after rapid industry recovery in China**

#### **Premiere for THERMPROCESS China and Saw EXPO China**

As the largest Chinese trade fairs for the wire, cable and tube and pipe industries, wire China and Tube China were jointly held at Shanghai New International Expo Centre (SNIEC) from September 23 to 26, 2020.

The trade fair business in China is picking up speed there again after COVID-19 was overcome. The trade fairs took place safely and at a distance, in compliance with all applicable hygiene regulations - a real atmosphere of optimism was noticeable in the halls.

A total of 725 exhibitors, including 640 Chinese companies, came to wire China and presented their innovations from the wire and cable industry on a total area of 54,000 square meters. Two national pavilions from Germany and France complemented the trade fair events.

At Tube China, 221 companies presented their innovations from the fields of tubes, pipes, tube processing and machining and the trade in tubes on a total area of 18,000 square meters.

For the first time, Tube China was supplemented by THERMPROCESS China and Saw EXPO China. In special theme pavilions, 20 companies from the fields of thermal process technology, sawing and alternative cutting technologies presented their innovations.

More than 36,000 visitors came to the four trade fairs in Shanghai on four days in total.
